

New! GIC 120 C Inspection Camera

The device for convenient inspection and documentation of hard to reach areas

- **Extremely compact 8.5mm** Camera Head ideal for a **wide range of applications**
- **Large 3.5"** display for a **comprehensive view**
- **Impressive quality** of both **Videos** and **photos**
- **Quick Connector** for **fast disconnection** and **compact storage**

Bright LED (2x stronger than current 9.5mm camera) for **improved lighting**

"Up is up" feature for **best orientation** at any time for the user

2 x Digital zoom to get a **better view** on area of interest

Black & white function for **better contrast** in **difficult light conditions**

Easy documentation – on the supplied **4gb MicroSD card**

Dual power source: runs with 10,8V Li-Ion or AA batteries

Problem – which way is up?

Solution - "Up is up" feature automatically orientates the picture and indicates where "up" is in reality.
