SECTION 4: First Aid Measures

4.1. Description of first aid measures

Inhalation	Inhalation of solder fume (at normal use temperatures) may cause respiratory distress. Remove at once to fresh air. Keep warm and at rest. If breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. If not breathing, give artificial respiration. If unconscious place in the recovery position and get medical attention immediately.
Eye contact	Avoid molten metal.
Skin contact	Wash off with soap and plenty of water. After contact with molten metal, flood the area with cold water and get medical attention if required.
Ingestion	Rinse the mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. If unconscious place in the recovery position. Obtain medical attention immediately.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation	May cause irritation to respiratory system.
Eye Contact	May cause irritation to skin.
Skin Contact	May cause irritation to sensitive individuals.
Ingestion	Do not eat.

4.3 Indication of any immediate medical attention and special treatment needed

Seek medical attention if any symptoms persist
