

JBC RHS

Rework Hand Support for PHS

JBC

An indispensable tool for precision work which **provides a point of support very close to the working zone, allowing the stabilization of the pulse rate.**

It makes the work more comfortable enabling a more relaxed position and reducing fatigue.

It is adjustable in height and permits **total freedom of movement.**

Its base plate is designed to work with PHSK Small Preheater Set and JNA High-Precision Hot Air Station.

**Don't believe us...
TRY IT!**
