

WSB is specially designed **for stripping high-temperature wire insulations made of thermostable materials** such as Teflon*, Kapton*, silicone, rubber, etc, from 36 to 18 AWG (0.127 to 1.020 mm) up to 800 °C / 1470 °F.

WSB incorporates predetermined power levels for each type of material. In addition, it features a customized working mode.

This station comes with the comfortable WS440 Tweezers and it is compatible with 3 easily interchangeable W440 Blade Cartridge Range.

Cartridge customization is available to satisfy any special requirement. Contact us on customtips@jbctools.com.
