335/350/367/7 Rack Screwdriver set Kraftform Plus Lasertip and rack, 7 pieces

Kraftform Plus – Series 300

EAN:	4013288094704	**Size:**	285x210x55 mm
Part number:	05320540001	**Weight:**	779 g
Article number:	335/350/367/7 Lasertip	**Country of origin:**	CZ
		Customs tariff number:	82054000

- Screwdrivers for slotted, cross-recess Phillips and Pozidriv screws and TORX®
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- Take it easy tool finder: colour coding according to profile and size
- Hexagonal anti-roll feature against rolling away
- Lasertip tips for more secure fit in the screw head

7-piece screwdriver set with Kraftform handle for pleasant, ergonomic working that prevents blisters and calluses. The Lasertip tip literally bites into the head of the screw and thereby prevents any slipping out of the screw head. "Take it easy" Tool Finder: colour coding according to profile and size. The hexagonal anti-roll feature prevents any bothersome rolling away at the workplace. Includes a practical rack for tidy storage of the screwdrivers.

335/350/367/7 Rack Screwdriver set Kraftform Plus Lasertip and rack, 7 pieces

Kraftform Plus – Series 300

Set contents:

350 PH
05008720001 1 x PH 2 x 100 mm

335
05110004001 1 x 0.8 x 4 x 100 mm

355 PZ
05009310001 1 x PZ 1 x 80 mm
05009315001 1 x PZ 2 x 100 mm

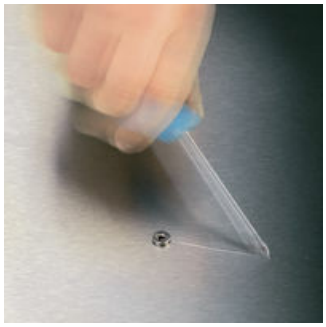

367 TORX®
05028008001 1 x TX 15 x 80 mm
05028010001 1 x TX 20 x 100 mm
05028012001 1 x TX 25 x 100 mm

Kraftform Plus screwdrivers – ergonomics you can grasp. They relieve the entire hand-arm system even when used intensively. Along with other technical and product advantages such as the Lasertip for a secure fit in the screw head, Kraftform screwdrivers are the ideal choice whenever manual screwdriving jobs are concerned.

Lasertip prevents slipping out

It happens time and time again that the tip slips out of the screw head when screwdriving, sometimes damaging valuable surfaces or even causing injury. The tips of the Wera Lasertip screwdrivers are microscopically roughened by means of a laser. This rough surface literally "bites" itself firmly into the screw head. Slipping out becomes a thing of the past.

Lasertip

A precisely-focused laser creates a sharp-edged surface structure. This laser treatment results in an edge hardness of up to 1000 HV 0.3. Wera Lasertip "bites" itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

Reduced contact pressure

Wera Lasertip reduces the contact pressure required and enhances force transfer – meaning less screwdriving effort is required. Screwdriving becomes safer and easier.

Kraftform

The basic idea for the prototype of the Kraftform handle – that the hand should dictate the design – has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

Prevents hand injuries

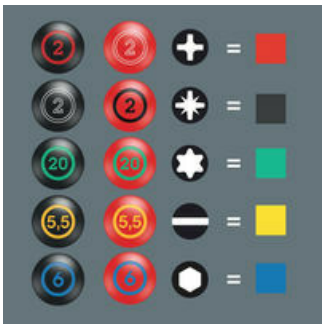

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

Rapid hand repositioning

The hard materials used for the handle ensure rapid hand repositioning without any danger of the skin "sticking" to the handle. The surrounding hard zones with large diameters glide like wheels across the hand.

“Take it easy” Tool Finder

Screwdrivers with "Take it easy" tool finder: colour coding according to profile and size stamp.
