

MACHINE MOUNT COOLANT MIST FILTER

// FEATURES

- Self-contained coolant mist and oil smoke filter suitable for most machine tools.
- F9 or H13 HEPA outlet filtration
- Airflows up to 2400m³/h

// CONSTRUCTION

- Fully welded mild steel
- Powder coated

// APPLICATIONS

Designed for most coolant mist or oil smoke applications, with optional final filter specifications dependant on installation conditions.

FEATURES

// THE COMPACT MIST FILTER FROM AIRBENCH

AOF machine mounted oil and coolant mist filter are effective for extraction from almost any machine tool with extraction rates up to 2400m³/h.

// UNIQUE CONICAL MESH FILTER

The conical main filter coalesces large particles on impact; then uses the wind shear principle to separate finer mist with further separation in the internal mesh layers.

// PROTECTIVE PREFILTER

Disposable prefilter captures larger particles from aggressive cutting / grinding applications and extends the life of the main filter.

// HIGH EFFICIENCY FINAL FILTER

Multi-layer final filter captures fine particulates. 2 filter options available dependant on application with finer filtration available for oil smoke.

Final filter has a lifespan of up to 3600 hours.

// MULTIPLE INSTALLATION OPTIONS

Direct mount, right-angle bracket, or floor stand packs in stock with custom brackets available to order. Installation service or self-install; installation pack provided with every unit.
